Ministry of Railways decides to adopt HOG (Head on Generation technology) system The way ACs run and power supply is done in railway coaches is to transform. Such new technological transformation is also to bring in foreign exchange saving of about 1400 Crore Rupees per year. In the new technology called – Head on Generation technology, the power will be drawn from the Overhead Electric supply. The power generator cars which used to make huge noise and emit fumes will no more be there. In place of two such generator cars there will be one standby silent generator car to be used for emergency. Finance Minister Smt.
